RE: Fire Assessment Resolution

DATE: July 30, 2003

---

Attached please see the changes I made to section 1. Just wanted to confirm that we are within the CPI amount set forth last year.

The opponents of course will make an argument that we have to mail ballots each year. However, I now think we are required to have to have the engineer's report each year. So, we are going to have to get a better rate from our current engineer or shop around.

As always, if you have any questions please feel free to contact me.
