Appendix 600-F ADVANCED FUNDING AGREEMENT

ADVANCE FUNDING AGREEMENT REGARDING COSTS PERTAINING TO FACILITIES DEVELOPMENT PLAN FOR THE AIRPORT ESTATES TENTATIVE MAP

THIS ADVANCE FUNDING AGREEMENT (the "Agreement") dated as of May 14, 2018 is entered into by and between the Groveland Community Services District, a community services district and a political subdivision of the State of California, formed and acting pursuant to Government Code Section 61000 et seq., (the "District"), and MidValleyAviation, LLC, a California Limited Liability Corporation, ("Developer"). District and Developer are hereinafter sometimes referred to collectively herein as the "Parties."

RECITALS:

- A. Developer owns certain real property (the "Property") either within the District or proposed to be annexed to the District which it intends to develop as a residential community to be known as Airport Estates (the "Project"). A map depicting the location of the Property is attached hereto as Exhibit "A" and is incorporated herein by this reference.
- B. The Property is located within the County of Tuolumne (the "County").
- C. District is the public agency responsible for the development, operation, maintenance, repair, and improvement of water supply, water treatment, water conveyance, sewer collection, sewer treatment, recycled water, fire suppression services, park and recreation facilities and services, and community buildings located within its jurisdictional boundaries. District's Facilities Development Policies located at Section 600 of the District's Operational Policies requires Developer to plan, design, fund, construct, and warrant all water supply, distribution and treatment facilities (the "Water System Improvements"), all sewer collection and treatment facilities (the "Sewer System Improvements"), all recycled water system improvements ("Recycled Water System Improvements"), all fire suppression facilities and services (the "Fire Suppression Facilities and Services"), all park and recreation improvements and facilities (the "Park and Recreation Improvements and Services"), and community buildings (the "Community Building Facilities") to serve the residents of the Project. County has designated District as the public agency responsible for providing water, sewer, fire suppression, park and recreational facilities and services, and community buildings to the Project and its residents. It is therefore necessary that District and Developer agree on the nature, location, size, amenities, plans and specifications for the Water System Improvements, Sewer System Improvements, Recycled Water System Improvements, Fire Suppression Facilities and Services, Park and Recreation Improvements and Services, and Community Building Facilities to be constructed within the Project dedicated to District. Upon acceptance of all such improvement projects and dedication to District, District shall be responsible for all operation and maintenance of such Water System Improvements, Sewer System Improvements, Recycled Water System Improvements, Fire Suppression Facilities and Services, Park and Recreation Improvements and Services, Community Building Facilities (hereinafter the "Improvements") within the Project.

D. District has adopted by Ordinance its Facilities Development Policies which require Developer to enter into this Advance Funding Agreement and a Development Agreement with the District specifying the obligations of the Developer and the needs of the District with respect to planning, constructing, operating and maintaining the Improvements to serve the residents of the Project. Said Facilities Development Policies also enact a fee program by which fees are charged to each Developer to cover the administrative, engineering, legal, environmental and consulting costs incurred by District in the planning, design, financing and construction of the Improvements to serve the Project (the "Fee Program").

E. In order to comply with the Fee Program, Developer hereby agrees to advance funds to District to reimburse the administrative, engineering, legal, environmental and other consulting costs incurred by the District for those services and in those amounts as specified in the Scope of Work attached hereto as Exhibit "B."

F. In consideration of Developer's advance funding of such administrative, engineering, legal, environmental and other consulting costs incurred by District, District agrees to undertake and complete the work described in the Scope of Work.

G. District has established the Project Development Trust Fund (hereinafter the "Fund") for the purpose of accepting advances of funds by Developer to District to be used by District to pay those costs and expenses incurred by District in performing the activities described in the Scope of Work.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, the Parties agree as follows:

1. Recitals. Each of the above recitals is incorporated herein and is true and correct.

2. Scope of Work. The Parties agree that the Scope of Work attached hereto contains the summary of the primary tasks to be performed by District and its staff in reviewing, revising, modifying, approving, inspecting, and accepting the Improvements to be constructed by Developer to serve the Project; estimating the costs of planning, designing and constructing such Improvements and providing such services; and developing a financing plan to provide for the design, planning, construction, operation and maintenance of the Improvements constructed within the Project to serve its residents.

District will retain, at Developer's expense, the necessary consultants to perform the tasks outlined in the Scope of Work, including, but not limited to engineers, special tax consultants, attorneys, architects, environmental consultants and any other consultants deemed necessary by District.

3. Advance Funding. In order to begin performing the tasks outlined in the Scope of Work, Developer will advance to District the sum of three thousand (\$3,000) within fifteen (15) days after full execution of this Agreement. From time to time, Developer shall make additional advances to the District within fifteen (15) days following receipt from District of a written notice which will request an additional advance to cover the costs of District to perform the tasks outlined in the Scope of Work. Developer shall make such subsequent advances as requested by District. If Developer does not deliver the requested funding amount to

District within such fifteen (15) day period, District will have no obligation to proceed with the tasks outlined in the Scope of Work unless or until such additional advances are received. Should Developer decide to abandon the Project, Developer shall be responsible to pay all costs and expenses incurred by the District or any District consultant or advisor relating to the tasks outlined in the Scope of Work until work with respect to the tasks outlined in the Scope of Work ceases following the receipt of Developer's notice of abandonment. In the event of Developer's decision to abandon the Project or otherwise refuse to deliver the requested additional funding amount to District as requested by District within the applicable 15-day period, Developer hereby consents to, and hereby waives, any protest it may have to the following remedies to be exercised by District: (1) recording in the office of the County Recorder a Certificate declaring the amount of the charges and penalties unpaid and due from Developer, which, from the time of recordation, shall constitute a lien against all real property of Developer owned in Tuolumne County; and (2) to the preparation and filing of a report with the County Auditor of Tuolumne County requesting that the amount of charges and penalties unpaid by Developer be collected on the Property Tax Roll by the Tuolumne County Tax Collector in the same manner as property taxes, all as provided in Government Code Section 61115(b) and (c).

The District will provide written notice to Developer when the balance of remaining advances is reduced to One Thousand Dollars (\$1,000.00). District will provide to Developer upon request the summary of how the advances have been spent and the unexpended balance remaining.

The District shall give Developer thirty (30) days written notice in the event that the funds required to pay the costs and expenses of District exceed the total amount set forth above. Prior to such notice District shall be available to meet with the Developer to discuss the need for additional advances, including amounts, timing, and tasks to be completed. At such time the District shall provide the Developer with an estimate of additional costs and expenses to be incurred by the District to complete the tasks outlined in the Scope of Work. The Developer shall, within fifteen (15) days following receipt from District of such estimate, advance additional funds to pay such estimate costs and expenditures of the District. If the District does not receive additional advances for such costs and expenditures within such 15-day period, the District shall cease all work and effort related to the tasks outlined in the Scope of Work until such time as the Developer has advanced additional funds to pay such estimated costs and expenditures.

4. Deposit and Expenditure. District shall immediately deposit all advances from Developer into the Fund upon receipt from Developer. As District incurs the direct and indirect costs and expenses associated with the tasks specified in the Scope of Work, District shall disburse from the Fund the sums required to pay said costs and expenses. The General Manager of District shall have sole discretion as to the disbursement of said Funds, limited only by the provisions of this Agreement.

5. Reimbursement. If, for any reason, the Developer abandons the Project, and Developer delivers notice thereof to District pursuant to Paragraph 6 hereof, and in the manner described in Paragraph 7 hereof, District shall promptly return to Developer any funds advanced by Developer for those particular tasks outlined in the Scope of Work which will not be implemented to the extent such funds have not been expended or committed under contract for any authorized purpose by the time such tasks are either not implemented or abandoned.

6. Indemnification. Developer shall assume the defense of, and indemnify and save harmless, the District, its officers, employees and agents, and each and every one of them, from and against all actions, liability, damages, claims, losses, or expenses of every type and description to which they may be subjected or put to by reason of or resulting from: (1) performance of, or failure to perform, the work or any other obligations of this Agreement by Developer, any subcontractor or

Developer's agents or employees; (2) any negligent act or omission of Developer, any subcontractor, Developer's agents or employees, in connection with any acts performed or required to be performed pursuant to this Agreement; (3) any dangerous or defective condition arising or resulting from any of the actions or omissions of Developer, Developer's agents or employees carrying out the provisions of this Agreement. This indemnification is effective and shall apply whether or not any such action is alleged to have been caused in part by the District as the party indemnified hereunder. This indemnification shall not include any claim arising from the sole negligence or willful misconduct of the District or its employees.

Developer further agrees to indemnify, defend and hold harmless the District, its officials, officers, employees, agents and consultants from any and all administrative, legal or equitable actions or other proceedings instituted by any person not a party to this Agreement challenging the validity of this Agreement, or otherwise arising out of or stemming from this Agreement, its approval, and/or the process relating thereto, including, but not limited to, any legal proceeding alleging that the District has failed to comply with the California Environmental Quality Act ("CEQA") with respect to this Agreement or the Project.
